COMPANY PROFILE

About Us

Excellence in Packaging, Reliability in Supply & End-to-End Management

VerloopBox is one of Türkiye's leading cardboard box and packaging suppliers. Driven by a robust domestic infrastructure, advanced manufacturing capabilities, and strategic contracted integrations, VerloopBox serves as a solution partner that meets international standards for industrial and corporate packaging requirements.

We are not merely a packaging supplier; we are a single partner managing quality and logistics across the entire lifecycle, from the design phase through production and quality control, all the way to our customers' warehouses.

Manufacturing Capabilities & Technological Expertise

To enhance your product's brand value and shelf appeal, we combine advanced printing, die-cutting, and folding-gluing technologies with high-capacity production lines:

01	**Offset Printed Cardboard Boxes (Litho-Laminated)**	We combine high-resolution graphic print quality with durable corrugated and solid board structures. We provide luxury and high color-precision packaging solutions for cosmetics, food, electronics, and retail sectors.
02	**MasterFlex (High-Precision Flexographic) Printed Boxes**	Offering speed, cost advantage, and HD print clarity for high-volume production, our MasterFlex technology produces heavy-industrial, food, and e-commerce packaging with flawless detail.
03	**Laminated & Corrugated Packaging**	By laminating various corrugated flutes (E, B, C, EB, BC) with premium board liners, we develop packaging that delivers both high stacking strength and exceptional aesthetic presentation.
04	**Windowed & Acetate Packaging**	Premium PET, Bio-PET, and compostable window application boxes designed for direct product visibility.
05	**4-Point & 6-Point Auto-Glued Boxes**	Engineered for high-speed automated packaging lines, our 4-point and 6-point auto-bottom (crash lock) gluing technologies increase structural integrity while significantly accelerating filling operations.
06	**Eco-Friendly & Sustainable Packaging**	100% recyclable, FSC-certified, and plastic-reduced packaging options tailored for green procurement standards.

PRODUCT & SECTOR DIRECTORY

Packaging by Sectors

Structural packaging solutions for 12 key sectors, produced at certified manufacturing facilities in Türkiye with dedicated tooling and quality inspection for every category.

01 p. 04

FOOD & BEVERAGE

Food Packaging

Cartons for direct and indirect food contact, printed with odorless, non-allergenic vegetable-based inks.

02 p. 05

FOOD & BEVERAGE

Chocolate & Confectionery

Premium gift packaging for food manufacturers and retail chains.

03 p. 06

FOOD & BEVERAGE

Beverage Packaging

Boxes and carriers for bottles, cans and cups that protect products during shipment.

04 p. 07

RETAIL & DISPLAY

Shelf-Ready & Display Packaging

Shelf-ready packaging that protects and showcases your products in store.

05 p. 08

HEALTH & BEAUTY

Cosmetic Packaging

Special printing techniques and distinctive box designs for discerning consumers.

06 p. 09

HEALTH & BEAUTY

Medical & Healthcare Packaging

Hygienic, traceable packaging for medical and healthcare products.

07 p. 10

LIFESTYLE & HOME

Textile & Apparel Packaging

On-trend packaging to see, touch and feel, reflecting the quality of your product.

08 p. 11

LIFESTYLE & HOME

Stationery & Toys

Odorless, non-allergenic inks and eye-catching designs that stand out on the shelf.

09 p. 12

LIFESTYLE & HOME

Kitchenware

Packaging that protects kitchenware and attracts end users.

10 p. 13

INDUSTRY & TECHNOLOGY

Electrical & Electronics

Value-adding packaging with a wide range of printing, cutting and laminating techniques.

11 p. 14

INDUSTRY & TECHNOLOGY

Automotive Parts

From 100 g wiper blades to 50 kg clutch linings, with JIT delivery and on-site storage options.

12 p. 15

FRESH PRODUCE

Fresh Produce

Moisture-resistant trays, crates and displays for fruit and vegetables.

01 Food Packaging

FOOD & BEVERAGE

We produce cartons for direct and indirect food contact, printed with food-safe, odorless and non-allergenic vegetable-based inks. Our production partners have the authorization and capacity required to manufacture food-contact cardboard packaging.

02 Chocolate & Confectionery

FOOD & BEVERAGE

Premium packaging that turns chocolate into a gift. We develop prestigious, seasonal and year-round packaging ranges for international food manufacturers and retail chains, helping your products stand out at the moment of purchase.

03 Beverage Packaging

FOOD & BEVERAGE

We produce packaging for alcoholic and non-alcoholic beverage bottles, aluminium cans and cups, designed to protect your products throughout shipment. Special printing techniques on a range of board grades reflect the quality of your brand.

04 Shelf-Ready & Display Packaging

RETAIL & DISPLAY

Shelf-ready packaging is one of the most powerful visual advertising tools in retail: it protects and displays your products while drawing shoppers' attention. We develop the right SRP solution for you.

05 Cosmetic Packaging

HEALTH & BEAUTY

Consumers in the cosmetics sector are highly selective. Using special printing techniques and distinctive box designs, we develop packaging that captures attention, reflects your premium quality and makes your product the one they choose.

06 Medical & Healthcare Packaging

HEALTH & BEAUTY

VerloopBox serves the healthcare sector with packaging manufactured to the hygiene and traceability standards healthcare buyers expect, reflecting the character and quality of each product.

07 Textile & Apparel Packaging

LIFESTYLE & HOME

Packaging that lets shoppers see and feel the quality of your textiles. Buyers expect continuous innovation in both product and packaging. We produce on-trend packaging that reflects the quality of your product.

08 Stationery & Toys

LIFESTYLE & HOME

We protect both your products and children's health. Our inks and coatings are odorless, non-allergenic and plant-based. Drawing on our understanding of shopper behavior, we develop eye-catching packaging that makes customers choose your brand on the shelf.

09 Kitchenware

LIFESTYLE & HOME

Kitchenware packaging must protect the product and attract customers. We produce packaging that protects your products as required and appeals to end users.

10 Electrical & Electronics

INDUSTRY & TECHNOLOGY

VerloopBox delivers high-quality packaging with short lead times. We create packaging that adds value to products in the electrical and electronics market, offering a wide range of printing, cutting and laminating techniques.

11 Automotive Parts

INDUSTRY & TECHNOLOGY

We produce packaging tailored to product specifications, from 100-gram windscreen wipers to 50-kilogram truck clutch linings. Automotive customers choose us for Just-in-Time (JIT) delivery and flexible stock and delivery options.

12 Fresh Produce

FRESH PRODUCE

Moisture-resistant corrugated trays, crates and shelf-ready displays for fresh produce, built to perform in cold storage and long-distance transport.

Our Manufacturing Philosophy: "Directly on the Factory Floor"

Unlike typical trading intermediaries, VerloopBox operates right at the heart of manufacturing processes at every stage of production.

On-Site Production Supervision

At our contracted, state-of-the-art facilities in Türkiye, every phase—from raw material inspection and printing to windowing, die-cutting, and 4/6-point folding-gluing—is monitored on-site by our expert team.

Rigorous On-Site Quality Control

Through laboratory testing, moisture content verification, and bursting strength checks during production and prior to dispatch, we maintain consistent quality and minimise defect risks right at the factory.

End-to-End Process Management to Your Doorstep

Delivering quality packaging on time and undamaged is as vital as manufacturing it. Leveraging our logistics expertise and global freight network, VerloopBox:

Manages all customs clearance, regulatory directives, certification requirements (ISO, FSC, BRCGS, Food-Contact Compliance), and official documentation seamlessly.

Organizes road, sea, air, and multimodal transport to deliver your packaging directly to your plant or warehouse door (Door-to-Door).

Why VerloopBox?

Global Standards

Full compliance with strict quality norms and sustainability mandates required by European and international buyers.

Precision Engineering & Custom Design

Identification of optimal FEFCO / ECMA box models tailored precisely to your product's weight, volume, and supply chain conditions.

Transparent & Engineering-Driven Approach

An expert engineering team dedicated to cost optimization without compromising quality benchmarks.

PPWR-Ready Packaging for the EU Market

Since 12 August 2026, all packaging placed on the EU market must comply with Regulation (EU) 2025/40 (PPWR).

Declaration of Conformity

Material declarations and heavy-metal and PFAS test reports to support your EU DoC and technical file.

Recyclable by Design

Mono-material, paper-based structures engineered for recyclability and the 2030 recyclability grades.

Ready for 2028 & 2030

Right-sized boxes that cut weight, volume and empty space, with artwork ready for EU harmonised labelling.
